## 1. What went well:

No.	Description
1	Team members work systematically
2	Tasks are completed on time with little delay
3	Figma prototype of UI layout is done (may need some enhancements in the future)
4	ER for the Database is done
5	The required documents for the sprint are completed
6	Tasks are equally divided

## 2. What went wrong:

No.	Description
1	Problems related to team coherence
2	Some tasks encountered problems while executing

### 3. Problems and Reasons:

No.	Problems	Reasons
1	Team coherence	Some controversial opinions based on the database specifications and the ER model
2	Problems related to the requirements of the PA	The requirements of the Use Case Model and Use Case Specification were not thoroughly understood by the members

### 4. What can be done better next sprint:

No.	Proposal
1	Team members should have more communication related to the tasks overall in order to collaborate efficiently
2	Any issues relating to the understanding of the PA's requirements should be addressed and discussed with the teacher early in order to avoid unnecessary delays
3	Tasks relating to developing must be carried out as soon as possible for next sprint
4	Flexibly update the Gantt chart according to the PA's due date

### 5. Lessons learned:

No.	Lessons
1	A meeting should be made urgently to solve any existing conflicts in the team
2	Problems related to the comprehension of the requirements in certain documents of the PA should be raised early to be issued with the teacher, avoid further delay of tasks
3	The Gantt chart should be updated at the Sprint Planning meeting according to the PA's due date
